- Internal wireless modem for Motient network

Physical

- Height: 2.95 in. (75 mm)
- Width: 4.06 in. (103 mm)
- Length: 11.65 in. (296 mm)
- Weight: 3.40 lb. (1.27 kg)
- Net shipping weight (including power adapter): 6.05lb. (2.26 kg)

Power

- Voltage: 4.8 VDC, replaceable, rechargeable battery pack
- Capacity: 1400mA
- Adapter: 12VDC 1A

Environmental

- Storage temperature: -4° to 158°F (-20° to 70°C)
- Operating temperature: 32° to 122°F (0° to 50°C)

Warranty

- Standard 12-month warranty

Technology, portability and versatility converge in LinkPoint International's wireless integrated mobile solution, the LinkPoint 9000. This integrated, all-encompassing device offers merchants a secure multifunctional mobile payment processor that can perform credit and debit card transactions in as little as eight seconds from virtually any location.

Fully programmable and user-friendly, the LinkPoint 9000 supports and stores both online and offline transactions. With a rechargeable battery-operated power system, the LinkPoint 9000 can travel anywhere. It communicates via radio-frequency modem and is able to store transactions for transmission at a later time.

A magnetic card reader and built-in PIN pad provide electronic credit and debit transactions, and the reliable thermal printer produces crisp, legible sales receipts in seconds. The LinkPoint 9000 also supports up to four divergent stored-value schemes with an optional built-in smart card interface. Comprehensive, versatile and portable, the LinkPoint 9000 is the complete wireless solution.

FEATURES

- Real-time, online authorization via wireless communication
- Integrated, all-encompassing terminal/printer/PIN pad
- Hand-held, battery-operated portable terminal
- Offline mode to store and forward transactions
- Large backlit display window and menu-driven application for easy user interface
- Built-in smart card interface (optional)
- Transaction security via manager/operator password
- External dual-charging dock for main and spare battery
- Five extra lines for custom header and trailer information
- Programmable sleep mode to save power
- Retains detail batch history for last three batches

ADVANTAGES

- Real-time authorizations virtually anywhere
- Superior coverage area
- Accelerated transaction times
- Superior reliability
- Increased efficiency
- State-of-the-art security
- High performance at a competitive price
